AN UNFRIENDLY ACT.

A separate peace offered by the Bolshevik government in Petrograd apparently has attracted the central powers according to a report from Stockholm, an emissary has gone to Petrograd with an offer of peace from Germany and its allies. It is reported also that General von Ludendorff, Field Marshal von Hindenburg's principal aide, and the reputed strong man of the German staff, has gone to the eastern frontier in connection with the Bolshevik offer of an armistice.

American government officials regard the Bolshevik offer as an act that would place Russia in the list of unfriendly nations. The British government, through the minister of blockade, declares that the making of peace by Russia would put them virtually outside the pale of civilized Europe.

Reinforced by divisions from other sectors of the western front, the Germans are resisting desperately the British advance on Cambrai. Around Fontaine Notre Dame, less than three miles west of Cambrai, and the Bourdon wood, close by, the most strenuous fighting has occurred with the British making progress.

General Byng is combining his attacks with consolidation work and the British are firmly established in their new positions, which give opportunity to destroy the usefulness of Cambrai as a supply center, as well as a starting place for a drive either north behind the Brocourt-Quent line, or east against Cambrai. Heavy fighting is taking place at Moeruvres, and at Crevecoeur. The Bourdon wood is dominating a hill to the west of Cambrai, and the Germans have put strong resistance here as well as at Fontaine Notre Dame, which flanks the wood to the west.

The British have made advances at the southern and southwestern edges of the wood. Near Moeruvres, General Hynd's men have taken Tadpole Copse, which dominates the village, part of which the Germans still hold. In addition to nearly nine thousand prisoners, the British have captured large quantities of war material and several score of guns.

Activity in Flanders.

Fighting activity has been renewed in Flanders, but on a small scale. On the Italian front, the forces of General Diaz in hand to hand fighting are holding up strong Austro-German attempts to advance. On the Aszagi plateau west of the Brenta river, the Italians have checked an enemy encircling movement with the object of surrounding Monte Neletta, the vantage point in this region. The Italian first army holding to its positions, inflicted serious losses on the attackers and captured 200 prisoners.

East of Brenta, toward the Piave river, the Italians still hold firmly on the important Monte Grappa/Monte Tomba line, protecting the entrance to the Venetian plains. The fighting here is of the most desperate character. The Austro-Germans are attacking in massed formation, aided by strong artillery fire. They have been unable, however, to make a dent in the Italian defenses in the last three days.

CAPPS RELIEVED OF DUTIES ON ACCOUNT OF FAILING HEALTH

Washington, Nov. 24.—Rear Admiral Washington L. Capps, general manager of the shipping board's emergency fleet corporation, was relieved from duty in that position tonight by President Wilson at his own request because of ill health and with expressions of deepest regret by the chief executive. His successor has not been named.

While Admiral Capps' physician has advised him that to continue at work in any capacity would imperil his life, there were reports that friction between the admiral and Chairman Huley hastened the former's decision to retire.

London, Nov. 24.—Viscount Reading, lord chief justice, has been created an "earl" and Lord Northcliffe a "viscount," according to an official statement issued this evening.

Author of 'Confession of A Wife,' Covers Bianca DeSaulles' Trial

MRS. IDAH McGLOONE GIBSON,

This sketch of a scene at the DeSaulles murder trial was made expressly for The Tribune by Special Artist Deacon Valentine. It shows Mrs. DeSaulles as she appeared in court wearing a simple, white shirt-waist and dark skirt. In the upper left-hand corner is Supreme Court Justice Manning. Below, in front of the judge, is the clerk, with his face partially hidden by the broad shoulder of Henry A. Utterhart, chief counsel for Mrs. DeSaulles. To the reader's right is District Attorney Charles R. Weeks.

Attorney for Madame De Saulles
Explains the Nature of
Client's Frenzy.

STATE TURNS CASE
OVER TO DEFENSE

Minneola, N. Y., Nov. 24.—"Hypothesis," which he termed an affection of the thyroid gland and which eventually produces a state of mental infirmity, was today given by her attorney as the disease from which Mrs. Blanca De Saulles was suffering when she shot her divorced husband, John L. De Saulles, at his Long Island home the night of Aug. 3.

This definition of the cause of the defendant's alleged temporary loss of accountability was given by Henry A. Utterhart in outlining the case he will endeavor to prove in justification of the Chilean heiress on trial here charged with murder. The trial began in supreme court here Monday and the prosecution rested at noon today.

Elements of Insanity.

Causes contributing to Mrs. De Saulles' impaired mental condition, Mr. Utterhart said he would show, are to be found in a history of his client's domestic relations with the former Yale athlete and clubman whom she shot. A fracture of the skull, suffered several years ago, left a bit of bone pressing upon Mrs. De Saulles' brain and this served to aggravate her alleged mental ailment, he said.

With announcement by the defense that Dr. Smith Eli Jelliffe, an alienist, would testify in Mrs. De Saulles' behalf, together with Dr. Louis C. Johnson of Johns Hopkins university, whom Mr. Utterhart termed a "physiological chemist," it seemed certain that a long battle in which medical technicians will figure will precede the placing of the case in the hands of the jurors.

Domestic Infidelity.

Mr. Utterhart sketched the defendant's early life, her marriage to De Saulles, their marital troubles, which ended in her obtaining a divorce, and her version of what occurred at her former husband's home, "The Box," near Westbury, Long Island, on the night of the tragedy.

The trial was resumed this morning with the examination of several witnesses called by the prosecution. Their testimony was finished and the state rested its case shortly after the noon hour with the reading into the record of two letters exchanged by De Saulles and the defendant, purporting to show that their four and one-half year old son, John L. De Saulles, Jr., was legally in the custody of his father when his mother's futile efforts to regain possession of him led to the shooting of De Saulles, according to her claim.

London, Nov. 24.—The site of ancient Misrah, five thousand yards west of the Jerusalem-Nabulus road, has been stormed by the British, the war office announces. The British mounted troops which had advanced northward were forced backward by the Turks.

Petrograd, Nov. 24.—Text of certain confidential communications between the Russian foreign office and foreign governments was published today by Bolshevik and Social revolutionist newspapers at the instigation of Leon Trotsky, the Bolshevik foreign minister.

German and Austrian politicians, Trotsky declares, may try to make capital out of these documents, but he warns them that when the German proletariat by means of a revolution, secures access to their chancelleries, they will find there documents which will show up no better light than those now published.

She is only a little girl with a beautiful madonna face that a modern artist would give years of his life to paint as she looked this morning in the court room at Minneola.

All the grief was expressed in the great brown eyes, that one can imagine were Mary's when she followed behind her Son up to the place of crucifixion.

The dark curling lashes hardly dis-

closed the brown eyes behind when even for a moment the white lids opened wide, so long were they.

Blanca De Saulles well merits her husband's compliment given in the heyday of his love for her. "Blanca is the loveliest girl in all the world."

The face so near me, one of the most exquisite I have ever seen, is still faintly oval although very thin, while an unearthly whiteness makes it look like a death mask from behind which shines dimly the light of a sorrowing soul that cannot be quenched.

She wore a simple little black crepe de chene skirt and a white crepe waist buttoned in the back, its soft rolling collar caressing the girlish throat.

"Has she a wedding ring," asked a woman on the other side of me. I looked at the delicate hand still clasped and answered "No."

She looked too young to be a mother or even a wife, for although they say she is 21, she might be 17 or 18 quite as well if you judged her by her appearance.

But as I looked again the light from the window came in and rested on her wavy brown hair and there just at the temple I saw five white hairs. As I caught a view of them Blanca De Saulles put up her hand as though she too had perhaps discovered them for the first time this morning and she was still wondering what special grief had put them there.

And I wondered if when she saw them she told herself as she fingered them:

"This one is for the long, weary months when I was awaiting the coming of Little John, when I had lost my girlishness and had become ugly and my husband left me for other gayer and more beautiful women."

"This one came from hurt pride."

"This one was for that awful time

Depth Bomb Of Americans Destroys Sub

Two Destroyers Take Part in
Battle on Sub Sea Craft of
Teutons

GERMAN CRAFT WAS SHATTERED BY BOMB

Washington, Nov. 24.—Definite news of the destruction of another German submarine by American destroyers reached the navy department today in a cabled report from Vice Admiral Sims. The submarine, damaged by a depth bomb, went down with all on board after a destroyer had attacked a liner and was attempting to take her in tow.

Two destroyers took part in the action. One, sighting a periscope at 400 yards, headed for it, and dropped a deadly depth bomb. Soon afterwards the submarine came to the surface with no sign of life aboard. The second destroyer steamed up and attached a line but the U-boat apparently shattered by the bomb went to the bottom.

UNITED STATES WONT RECOGNIZE THE BOLSHEVIKI

at Washington

TRUE SPIRIT OF RUSSIA TO ARISE

Washington, Nov. 24.—Ambassador Bakmetoff, of Russia, formally notified the State Department today that the Embassy does not recognize the authority of the extremists now in control of the Foreign Office at Petrograd.

In a letter to Secretary Lansing, following the resignation of three of the chief officers of the Embassy to avoid having relations with the Bolshevik government was not representative of the true will of the Russian people and that he would not recognize that or any similar government which would lead the country into non-participation in the war.

The Ambassador said he considered it his duty to remain at his post, and would do so with a competent staff of assistants. While expressing the belief that until conditions changed the embassy could not exercise in full measure its essential duties and therefore had authorized members of the embassy to find other fields for their activities.

John Slobine, first secretary of the embassy, and an officer of the Russian army, and Ferdinand de Mohrenschild, the second secretary, who married Secretary McAdoo's daughter last May, have offered their services to the American government during the war against Germany.

BERLIN CLAIMS.

Berlin, Nov. 24.—Italian attacks against the Austro-German positions in the mountains in raging with unexampled violence. The Italians again hold the Monte Tomba, and Monte Periccia positions which they lost last night. The losses have been very great, but the enemy's far exceeds those of the Italians. On the outcome of the mountain battle depends the result of the enemy's greatest effort to break through the Italian lines to the Venetian plain. The recapture of the Italian positions on Monte Tomba was accomplished by a succession of brilliant charges which dyed the snow's red and left the ground piled with enemy dead. Monte Periccia was lost and won four times, the enemy finally being thrown back. Although the losses have been terrible, those of the enemy are far by the greater owing to the condition of the fighting field and desperate heroism of the Italian

BRITONS DRIVE BACK ENEMY
British Army Headquarters in
France, Nov. 24.—(By the A. P.)—
The British early today drove back
the enemy at the elevation called Tad-
pole Cope, which dominates a large
section of the canal du Nord and a
large part of Moeuvres in the Cam-
bral area.

GENERAL REVIEW.
British Army Headquarters in
France, Nov. 24.—The British and the
German forces last night rested on
their arms along most of the new
battlefront after three days of deter-
mined conflict. Hard local fighting
continued at some points, notably in
the vicinity of Crevecoeur, Moeuvres
and Bourlon wood, but for the most
part the British were engaged in con-
solidating work and the Germans gave
little trouble in the way of counter
attacks.

It appears that the British early to-
day drove back the enemy at an ele-
vation just west of Tadpole Cope. The hill domi-
nates a large section of the Canal du
Nord, running east of Moeuvres, and
to a large extent the village itself,
which still is in German hands.

There has been no further change
at Fontaine, where the Germans yes-
terday delivered a heavy counter at-
tack and compelled the British to
withdraw from the village to a pos-
ition a little south of it. The fight-
ing at Fontaine was at close quarters
and particularly bitter.

This morning the Germans in the
eastern part of Crevecoeur village
were maintaining an intense machine
gun fire against the British in its west-
ern environs.

Rain fell last night and today dense,
low-hanging clouds were letting down
a steady drizzle which made aerial
observations very difficult. Notwith-
standing this handicap both the British
and the German airmen were oper-
ating at exceedingly low altitudes
along the battle line. The enemy's
airplanes were especially active in the
region of Bourlon wood.

No announcement has been made of
the amount of material captured by
the British, but great quantities of war
stores are strewn over the battle area
and among the booty are numerous
guns.

The total of prisoners so far count-
ed still remains somewhere between
8,000 and 9,000.

British Hold Ground.

While in the main the British are
consolidating the positions they won
in the spectacular two day battle, en-
gagements of hard fought of a local
character are taking place on numerous
sectors, where the Germans are en-
deavoring to drive out the English,
Scotch, Welsh and Irish contingents,
whose drive has placed them virtually
on the threshold of Cambrai.

Especially severe has been the
fighting around Crevecoeur, Moeuvres
and the Bourlon wood, of the latter of
which regions at last accounts the
British cavalry was operating brilliant-
ly in an endeavor to surround and capture
the wood, which would give to
General Byng a position dominating
the entire battle front. The ground
previously gained by the British had
been held up to late Friday and in
addition west of Moeuvres an eleva-
tion dominating a large section of the
canal direct north and the town of
Moeuvres, which was in the hands of
the Germans, had been captured.

Germans Fight Bitterly.

The Germans are fighting bitterly to
recapture lost terrain and to hold
back further incursions into their line.
The fighting apparently is between
the opposing British advance and the
German rear guard, for the major
portion of General Byng's army evidently
is engaged in consolidating the terri-
tory already won and preparing for
another dash forward when the time
is opportune.

Although the British are busily en-
gaged in the Cambrai sector, Field
Marshal Haig has not overlooked a
chance again to strike a German line
in Flanders. South of Ypres, the
British have thrown forward their line
slightly. On the northern front the
Germans have delivered several small
attacks against the French in the
Aisne region, northwest of Rheims,
and in Champagne, but all of them
were repulsed by the French artillery.

At Death Grip on Plave.

Between the Brenta and Plave rivers
in the Italian theater the Italians
and the Teutonic allies are still at
deadly grips, with the enemy endeavor-
ing to break through to the Venetian
plain, but with the Italians every-
where holding them. All along the
front the fighting is of a particularly
sanguinary nature, the troops fre-
quently meeting in hand to hand en-
counters and positions often changing
hands.

The enemy everywhere is throwing
masses of men against the Italians,
and his losses in killed, wounded or
made prisoner have been extremely
heavy. It seems to be the ambition of
the invaders to break out upon the

plain before the expected British and
French reinforcements arrive, but up
to the present their efforts have been
without avail. Comparative quiet pre-
vails along the Plave river to the Ad-
riatic.

Bolshevik Proposal.

Following the proposal made by the
Bolshevik government in Russia for
an armistice a reduction in the Rus-
sian army has been ordered by Nikolai
Lenine, the Bolshevik leader, to take
effect immediately. Simultaneously,
it is stated unofficially that a Russian
diplomat has left Stockholm for Petro-
grad to deliver to the Russian revolution-
ary government peace proposals
of the central powers.

Leon Trotsky, the Bolshevik for-
eign minister, in an interview an-
nounces that the Bolsheviks are
against a separate peace with Ger-
many but desire a universal peace
with the European nations.

HEAVY FIGHTING.

British War Headquarters, Nov. 23.—
While standing off German counter
attacks, the British forces have con-
centrated their gains and are pre-
pared for another plunge toward Cam-
bral. Byng's men are just west of
Fontaine Notre Dame, less than three
miles west of Cambrai, and have near-
ly completed the occupation of Berlin and
wood just north of Fontaine and
which dominates the entire region.

Scenes of Heavy Fighting.

Fontaine Notre Dame was the scene
of the heaviest fighting yesterday
Wednesday night the villa was cap-
tured by the British but a strong
counter attack Thursday drove the
British to the western outskirts. The
village is the apex of the wedge which
the British have driven toward Cam-
bral, and which includes approxim-
ately 39 square miles of territory form-
erly within the German lines. The
Germans are reported to be rushing
up reserves for counter attacks

Stroke a Masterpiece.

General Byng's stroke was a mas-
terpiece of organization, according to
reports from the front. Many squad-
rons of tanks crept through the great
wire defenses opening the way for
the infantry and cavalry which pushed
through rapidly to the last defend-
ing line to Cambrai. The transporta-
tion service kept pace with the ad-
vance, the construction of roads and
railroads. Field Marshal Haig an-
nounces, having contributed largely
to the success of the operation. King
George has promoted Lieutenant Gen-
eral Byng to the rank of general in
recognition of his distinguished ser-
vices.

ITALY LINE TAUTENING.

High military opinion recently ex-
pressed that the chances of the Ital-
ians to hold the Piave line and save
Venice are increasing hourly,
seems to be strengthened by the tone
of today's Italian official statement
showing continued successful resis-
tance by the Italians to the furions at-
tempts being made by the enemy to
pierce their northern front.

The Italian first and fourth armies
defending the northern line where the
defensive forces that added to the rec-
ord of their already notable achieve-
ment. An encircling movement in the
Monte Melette region was comple-
tely frustrated by the first army al-
though great forces of Austro-Ger-
man troops were employed in the at-
tempt.

ITALIANS CLINCH POSITION.

The fourth army holding the front
to the east was compelled to contend
all day with a series of attacks in the
Teutonic efforts to turn the flank of
the Piave river line by pushing a
wedge through in the Monte Grappa
region. The battle tide ebbed and
flowed throughout the day, but when
night came the Italians had retaken
all the positions they had temporarily
lost, and the final counter attack
clinched the victory.

NEW VESSELS TO TAKE KAISER'S NUMBER

The top picture shows the
launching of a new Italian sub-
marine, to be used in protecting
Adriatic coast towns—the belov-
ed Venice and the rest—from
bombardment by the Austrian
fleet. Small? Yes, but great
cruising radius is not required
and a torpedo from a small sub-
is as deadly as any other. Be-
sides, small ones can be built
faster.

Below is shown the launching
of the first concrete ship by Can-

ORDERS IN COUNCIL

ISSUED AT OTTAWA

Ottawa, Ont., Nov. 24.—The prob-
lem of what to do with Canadians of
military age in the United States and
Americans of military age in Canada
is dealt with in an order in council
issued today which has received the
sanction of the governor general. It
provides that either country may at
any time, by proclamation, call for
military service under its own colors
any class of its citizens or subjects re-
siding in other countries.

Furthermore, it is provided that, "If
any of the men called out by such
proclamation do not within a time
which shall be limited by such procla-
mation return voluntarily to the coun-
try of their allegiance for the purpose
of performing their military duties
there, they shall be subject to depor-
tation to that country and that the
laws, tribunals and officials of the
country in which the men so called
are living shall afford all reasonable
sanction and assistance for the pur-
pose of apprehending and compelling
them to return accordingly."

The order in council was passed on
the recommendation of the minister
of justice. It recites that in the opin-
ion of the minister of draft conven-
tion between Great Britain and the
United States in regard to the calling
out of men does not meet the situa-
tion between the United States and
Canada, and submits special stipula-
tions. These are to be forwarded to
the British embassy at Washington for
submission to the United States gov-
ernment.

AMIDON GONS THE LAW FOR LIGHT ON BONE DRY MEASURE

Takes Time to Investigate the
Measure to See What Mean-

COURT REFUSES TO MAKE AN OFF-HAND JUDGMENT

Grand Forks, N. D., Nov. 24.—De-
cause of a number of mystifying fea-
tures of the new federal bone dry law,
Judge C. F. Amidon, presiding at the
government's case against the East
Grand Forks Brewery company, et al.
Friday, did not rule on the motion of
defendant's counsel to dismiss the
case. The court will rule upon the
motion some time tomorrow. Geo. A.
Banks, chief counsel for the defen-
dants, in moving dismissal, contended
that the government had failed to fur-
nish ample evidence that a violation of
the statute had been committed.

Mr. Bangs declared that the law was
not aimed at vendors of intoxicating
liquor, but at the purchasers. The
law, he said, penalized only those
who actually transported or participat-
ed in transporting liquor into dry ter-
ritory.

United States District Attorney M.
A. Hildreth contended that the defen-
dants in formulating a system by which
it became possible to furnish beer to
people in territories where it could
not otherwise be obtained because of
existing laws, actually had shown
their intent to transport or assist in
transporting beer into prohibition
states.

On several occasions, the court
frankly said that he was puzzled when
considering various phases of the sta-
tute. He was somewhat disposed, he
said, to think that congress might
have made a mistake in not distin-
guishing clearly between the purchas-
er and the seller of intoxicating
liquor.

"The fact that the defendants might
have known that the beer was to be
transported in interstate commerce in
violation of the law," he said, "would
not in itself render them liable."

Mr. Bangs announced to the court
that he has no testimony to offer.

The court announced that he de-
sired to investigate the origin of the
bone dry law in an effort to ascertain
exactly what was meant by it.

Secretary of War Gives First In-
formation in Regard to Our
Sammies in France.

Washington, Nov. 24.—Arrival of
American troops in France has kept
pace with the expectation of the war
department. Secretary Baker said to-
night in the first statement he has
ever authorized in connection with
the progress being made increasing
General Pershing's forces. Mr. Baker
declined, however, to state the num-
ber of troops forwarded or to indicate
whether he anticipated delay from
this time. Movement of the forces, he
said, depended on two elements, the
training and equipment of the men
and the availability of ships.

"As fast as they are ready ships and
men will be combined," the secretary
said. "As many American troops are
now overseas as we expected in the
beginning to have overseas at this
time."

Mr. Baker indicated that an official
statement of the number of American
troops in France was not to be ex-
pected for some time.

Bolshevik Foreign Minister Says

Party Will Not Agree to
Separate Peace.

GERMANS READY TO TREAT WITH TERRORISTS

Son of Russian Sage Declares the
Revolutionary Troubles Are
Only Temporary.

Petrograd, Thursday, Nov. 24.—The note of Leon Trotzky, the Bolshevik foreign minister, to the allied embassies conveying the announcement of the proposal for an armistice on all fronts, reached the embassies last night.

AN UNFRIENDLY ACT.
Washington, D. C., Nov. 23.—Officials of this government regard the Bolshevik move for an armistice between Russia and her enemies and the opening of immediate peace negotiations as an act that would place Russia almost in the list of unfriendly nations.

Ambassador Francis has been given no instructions to deal with the Bolshevik government.

Petrograd, Wednesday, Nov. 21.—In connection with the order to General Dukhobor, commander in chief of the Russian army, to open negotiations for an armistice with the enemy commanders, the Associated Press today interviewed Leon Trotzky, the Bolshevik foreign minister. Trotzky emphatically declared that the soldiers and workingmen's government was against a separate peace with Germany. He voiced his conviction that Russia's initiative in offering peace will be supported by the proletariat of all countries, allied or belligerent, which will make impossible a continuation of the war, even if the governments do not accept the offer.

"What are the plans and intentions of your government?" the correspondent inquired.

Plans of Bolsheviks.
The plans and intentions of the government are outlined in the program of the Bolshevik party, to which the all-Russian congress of soldiers' and workingmen's delegates entrusted the formation of a soldiers' and workingmen's government," the foreign minister answered. "First, there will be the immediate publication of all secret treaties and the abolition of secret diplomacy.

"Second, an offer of an immediate armistice on all fronts for the conclusion of a democratic peace.

"Third, the transfer of all lands to the peasants.

"Fourth, the establishment of state control of industries through the medium of organized workingmen and employees; the nationalization of the most important branches of industry.

"Fifth, the delivery of all authority to local soldiers' and workingmen's deputies.

"Sixth, the convocation of a constituent assembly which will introduce its reforms through the medium of the soldiers' and workingmen's deputies, and not through the old bureaucracy, on an appointed date.

Peasants Get the Land.

"The offer of an immediate peace already has been made. The decree transferring the land to the peasants has been issued.

"Power has been assumed by the soldiers' and workingmen's deputies in most of the important places."

"What will the government do if

Russia's allies refuse to enter into negotiations for peace?" the correspondent asked.

"If the allied governments do not support the policy of a democratic peace, Trotzky replied, "the allied peoples will support us against their government. Our international policy is calculated not for capitalist diplomacy, but for the support of the working masses."

"Does the government think a separate peace with Germany is possible in the existing circumstances?"

Separate Peace.

"We are against a separate peace with Germany. We are for a universal peace with the European nations. What will the government do if Germany refuses to negotiate for peace? Will it continue the war?" was the next question.

"We rely on the German army and the working classes to make a continuation of the war impossible," Trotzky replied.

"If, however, our frank and honest offers of peace meet no response, we would declare a revolutionary war against German imperialism, we would mobilize all our forces, confiscate large food supplies and prosecute the war as energetically as we did the revolution. But we have every ground to think that our offer of peace will make impossible a continuation of the war on all fronts."

"What is the country's attitude toward the governmental changes?"

Bourgeois and Intellectuals.
"All the bourgeoisie is against us. The greater part of the intellectuals is against us or hesitating, awaiting a final outcome."

The working class is wholly with us. The army is with us. The peasants, with the exception of exploiters, are with us.

The soldiers and workingmen's government is a government of workingmen, soldiers and peasants against the capitalists and land owners.

"Is it true that the government will publish the secret treaties?" was the final question.

"Yes," the foreign minister answered.

The correspondent was received in a room devoid of all ornament and containing only desks and chairs. Leon Trotzky was cheerful, but preoccupied in demeanor. When leaving the room the correspondent was escorted to the outer door by a private secretary. An armed guard distrustfully followed the visitor out of the room.

TOLSTOI ON SITUATION.
San Francisco, Cal., Nov. 24.—The reign of the Bolshevik revolutionists in Russia will be short, and sadder councils will prevail when a man strong enough to lead the former empire of the czar out of its present chaos appears, was the opinion expressed today by Count Ilya Tolstoi, second son of the late Count Leo Tolstoi.

"I have just returned from a tour of Russia, in which I spent much time in not only Petrograd and Moscow, but also in the outlying sections," said the count.

"The Maximalists will not remain in power long. They hold Petrograd, but Petrograd is not Russia. In Moscow the sentiment is all against us in tactics as they employed. Moscow represents the best thought in Russia. It is apparent that Kerensky was not strong enough to mould the destiny of this chaotic country. Russia waits for a strong man. Who he is, or where he will come from, none can tell, but there will be no order come out of the chaos until the leader is found."

"It is impossible to say whether Russia will ever again become a factor in the war, but this is sure—the people, both in the country and in the cities, are weary of fighting. It is only a question of whether they prefer war or German domination."

Count Tolstoi was on his way to New York.

OUTSIDE CIVILIZATION.

London, Nov. 21.—Lord Robert Cecil, minister of blockade, in his weekly talk today with the Associated Press, spoke of the proclamation issued by Nikolai Lenin and his followers in Russia, urging an immediate armistice, saying:

"If it represents the real opinion of the Russian people, which I do not believe, it would be a direct breach of treaty obligations and Russia's alliance. Such an action, if approved and ratified by the Russian nation, would put them virtually outside the pale of civilized Europe."

AMERICA PAYS FOURTH OF COST OF WORLD WAR

Expenses Now for All Nations
Are Estimated at \$160,-
000,000 Daily.

The war is costing the belligerents nations of the world at the rate of \$100,000,000 a day—\$6,500,000 an hour—and the United States is paying at least one-quarter of this staggering sum, according to estimates made by the Mechanics and Metals' National bank of New York.

The estimated daily cost at the beginning of the war was \$50,000,000, and a year ago it was \$100,000,000. This country's rate of expenditure is greater than any other nation, Great Britain being second and Germany next.

By next August, according to the bank's figures, the total cost of the world war will be \$155,000,000,000. Already expenditures have exceeded \$100,000,000,000, of which all but a fraction has been translated into permanent national indebtedness. Interest on public debt is now calculated to be more than 16 per cent of the normal income of the German people, as compared with less than one-half of 1 per cent in the case of the people of this country.

The developed national wealth of the allies is placed at \$600,000,000,000 by the bank, while that of the Central powers is given at \$130,000,000,000.

About 53,000,000 men are today engaged in war. To what extent the entente allies have gained superiority over Germany is shown by the bank in striking fashion.

With no more than 2,000,000 of American manhood enlisted, the total military strength of the allies is 34,000,000, against a total for Germany, Austria, Hungary, Bulgaria and Turkey of 20,000,000. The population of 14 entente allies from which the ranks of their armies may be replenished is altogether 1,300,000,000, against a population of less than 150,000,000 in the central European nations.

They told me that because "she had lived much" first her husband and then her son, Blanca De Saules was on trial for her life today. They told me that whatever was to be her fate, nothing could bring her greater agony than the terrible series of events that brought those white hairs

TO HAVE MORE VEGETABLES

Big Gain in Yields of Onions, Cabbages and Beans.
Enormous increases in production of fall onions, cabbages and beans over last year are shown in estimates announced by the department of agriculture.

Fall onions production is forecast at 13,554,150 bushels, compared with 7,882,700 last year. The acreage in 1916 is 41,300, against 28,400 last year.

California leads, with 3,348,000 bushels; New York is second, with 2,881,200 bushels, and Ohio third, with 1,900,000 bushels.

Production of cabbages is forecast at 601,820 tons, compared with 252,310 tons last year. The acreage is 73,200, against 40,800 last year. New York leads in production, with 349,680 tons, almost four times as much as last year, and Wisconsin is second, with 121,900 tons.

Almost double the quantity of beans is forecast, with a total of 15,814,000 bushels in the five principal growing states—New York, Michigan, Colorado, New Mexico, and California. California leads, with 9,278,000 bushels; Michigan is second, with 4,008,000 bushels.

IT IS OURS

Among the burdens to be borne at
this time is the chronic pessimist,
who, particularly at this time, stands
around pronouncing gloom. He may be
considerable of a patriot, too, but he
is so constituted that he habitually
says nothing, are the risks, the
chances to criticize, the mistakes and
the chances presented, and for the
very reason that there really is pa-
triotism in him, he's a burden, if not a
positive danger, to the national cause?

Often there are fleas on the best of
dogs. We can most easily carry the
gloom of the pessimist by using our
own stock of cheer

True, Russia is a war failure, if not
worse. The Italian disaster is big.
The danger to Rumania through re-
lease of Germans on the Russian
front is great and imminent. There
may be a greater disaster at Salojo.
There are plenty of excuses for the
terror and fears of the confirmed pes-
simist

But national cheer, world cheer pre-
dominates and dissipates all the super-
ficial and artificial gloom. If we keep
fast hold of the conviction that this
war is not to end until the United
States puts its whole power into it,
and if we confine our thinking and
working to mobilizing and applying
that power

We must do the big work, and we
can!

That is the thought which must
dominate and move us, and in it is
nothing, save cheer. It kept alive the
heroes at Valley Forge, with all the
mighty British odds against them.

It filled the tails of our poor little
navy in 1812. Through all the agony
of our civil war that thought ruled
the national heart. God had laid out
a plan of work for human freedom,
and called upon America for the labor.

Confident in the might of the truth
and the right America answered that
she would and could. And she did.

Today that call is clearer and stronger
than any that ever before came
to human ears. America's the sacred
duty the will and the power!

Our Russian ally may disintegrate.
Italy may be shot to pieces. Rumania
may become another Belgium. Salojo
may enter the Teutonic bag. The
finality lies behind the Rhine, and
America will be there, in another sun-
rise of freedom. Ours the vision, the
mission, the ability, and in our history
there is no such word as fail

The dinner-dance this evening at the Grand Pacific given by the Bismarck council of the United Commercial Travellers in honor of their grand councillor John L. George, will be the big society event of the week. From 8:15 to 9 o'clock in the parlors of the hotel, Councillor and Mrs. George will receive with a committee of the officers of the U. C. T. and their wives to attend.

CHRISTMAS GIFTS TO SOLDIERS SHOULD BE SENT WITHIN 10 DAYS

Important information regarding the time Christmas packages should be sent to Long Island for the boys of North Dakota has just been received in Jamestown by Mrs. Andrew Blewett from Mrs. James D. Gray, who is in Long Island with her husband, Capt. Gray.

Mrs. Gray writes that all packages intended for the boys for Christmas should be sent within the next ten days. She further states that the packages should bear the recipient's name, the address of the regiment and division, Camp Mills, Hempstead, Long Island, N. Y.

Entertains Choir.

Miss Caspary entertained members of the First Presbyterian church evening choir of which she is director Friday evening at her studio in the Bismarck Business college building

Food Demonstration

December 5-6 are the dates announced for the December food demonstration by Miss Newton of Fargo in the capital city. The dates were decided on Friday afternoon at a meeting of the Bismarck Food council in the Commercial Club rooms.

Forester Benefit.

As a benefit for the Bismarck St. Ann Court Lady Foresters, the film production of "The White Sister," featuring Viola Allen, will be shown Tuesday, November 27 at the Grand Theatre. The advance sale of tickets promises a large audience.

Sale Will Be Large

Early reports received from the Red Cross Seal sale indicate that the sale will surpass the one last year when Bismarck alone sold \$355 worth in one day. Committees were busy from 9 o'clock this morning canvassing their eleven districts and everywhere people purchased most liberally.

Fruit Shower for Teachers.

Mrs. Myra Morgan and daughter, Mrs. O. T. Razen entertained Friday evening at their home in Second street in honor of Miss Mary Hinckley and Miss Katherine Densford of the high school faculty. Miss Hinckley and Miss Densford have taken an apartment in the Jones building and the guests last evening

showered them with preserved fruits and jellies and other edibles. Red Cross knitting formed the diversion. The guests included Mrs. Charles Hugeman, Mrs. Clark, Mrs. J. B. Brown, Mrs. W. J. Freed, Miss Young, Miss Johnson, Miss Bond, Miss Strieb, and Miss Laston.

Silver Wedding.

Editor S. A. Young of the Mandan Republican and Mrs. Young celebrated Thursday their silver wedding anniversary at their home in Fourth street, Mandan. During the evening members of the Royal Neighbors tendered them a surprise and presented them with a handsome silver gift. Editor and Mrs. Young are among the best known residents of that place.

Ex-Governor's Son to Wed

Formal announcement has been made of the engagement of Capt. Duane York Saries, son of Ex-governor and Mrs. Elmore V. Saries of Hillsboro, to Miss Sylvia Daphne Brown, daughter of Mr. and Mrs. James D. Brown of Minneapolis. Capt. Saries is with his company at Camp Dodge, Des Moines, Ia. No date has been set for the wedding.

Club Notes.

The L. O. P. H. club was entertained Thursday afternoon by Mrs. C. C. Wattam at her home in Fifth street. Knitting for the Red Cross was the diversion.

The D. D. B. club which has only recently been organized, was entertained Friday evening by Miss Olga Vigness at her home in Thayer street. Red Cross knitting was the diversion.

Bismarck Council One of Northwest's Most Active Travelers' Organizations

Local Unit has Membership of 135 and is Constantly Growing—

Has been Important Factor in Life of City and in Development of the Whole Slope Region.

Bismarck council, U. C. T., which temporarily sojourns in the city this evening acts as host at one of the season's most brilliant social functions, in honor of Grand Councillor John L. George, is one of the three largest local units of commercial travelers in North Dakota. In influence and scope no council in North Dakota covers a wider territory, does it more thoroughly, has proven more energetic, or more of a real factor in the progress of its community.

A majority of the 135 members of Bismarck council are men who make their residence here and whose families live here. Many of them have homes here. All of them have proven themselves live and progressive citizens of their home town. In every which has made for advancement and betterment, the council has been found in the fore. In Commercial club work, in Red Cross, Liberty Bond and Y. M. C. A., drives the knights of the grip have been found more than holding up their end; more than doing their share.

Bismarck is indebted to Bismarck council, U. C. T., for the handsome drinking fountains which have filled a long-felt want. The city is indebted to the traveling fraternity for the success of many projects which could not have been undertaken or successfully consummated without their help.

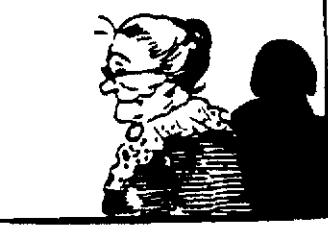

They have been loyal to Bismarck, rendering her good name and carrying her fame far and wide over their territory. North and south, east and west, in good weather and bad, these flying squadrons of commerce have ranged the state and sister states, and wherever they have gone they have found a welcome.

In their chosen profession they are leaders. They have worked their way upward to a point where they command the state's most valuable territory. The houses they represent and swear by are good houses which merit the patronage which their representatives have won them.

Tonight the travelers play the host to Bismarck's leading business and professional men as well as to brothers of the grip who may be in town.

WHAT AMERICA MUST DO In the Face of Russian Anarchy and Italian Reverses

Germany will be defeated by France, Great Britain, and the United States, and at the last, the lion's share of the task will belong to the United States. This opinion, advanced by many competent observers since Russia's lapse into anarchy and Italy's staggering reverses, is accepted by our press in all parts of the land in a spirit of quiet and unfaltering resolution. "We have drawn the sword and we might as well throw away the scabbard," exclaims the Chicago *Herald*, "for it is to be a fight to a finish and German successes in Russia and Italy indicate that the struggle may be prolonged."

The only German drive that the Allies have reason really to fear, many of our papers declare, is the coming drive for peace terms that will leave Germany secure in the possession of her present absolute control over middle Europe, and which will doubtless find expression through various pacifist outlets in America. "What I am opposed to is not the feeling of the pacifists," says President Wilson, "but their stupidity. My heart is with them but my mind

IS COLLEGE FOOTBALL PLAYER BETTER THAN PROFESSIONAL? FIGURE IT OUT FOR YOURSELF.

Tales of football players Braden and the Akron team, was Frank Nesser, one of the famous Nesser brothers of Columbus, whose education was obtained in the machine shops of the Pennsylvania Railroad at Columbus and while on all career was confined mainly to games with the Columbus Phantoms, an uncoached team which had won on the field with but ten days' notice.

During the time Brinkley imposed Nesser, the sandlot out-purposed the great Eastern star and won the game for Akron by a drop kick from the 4-yard line, the only score of the game.

On the Massillon team appeared the famous Charley Brinkley, one of the greatest backs ever produced at Harvard and probably the greatest punter and drop kicker of the decade.

SHADE OF JOHN BULL; IS BASEBALL TO SUPERSIDE CRICKET IN "OLD ENGLAND"

The war promises to do what four decades could not do to the conservative British mind—make baseball a popular sport in England.

British sporting papers are freely predicting that baseball is likely to supersede cricket as the popular English game and cites the immense crowds which have attended recent games between Canadian troops to back up their predictions.

From the 1,000 hundreds who attended the first game played in England, the crowds have increased to from 15,000 to 20,000 in games held this fall.

No less than 101 Canadian teams were entered in an elimination match held in this summer and fall to decide

the championship of the Canadian overseas forces.

The final game was played between the nine representing the Epsom Canadian Convalescent Hospital and the One hundred and Ninety-eighth Battalion, the former winning 7 to 1. Serial game and cites the immense

Thus spoke the coach of the Scrubs at Wisconsin a few years ago as he eyed a diminutive bundle of football tags and bandages.

"You did, but I'm back again," said the pygmy.

That was about the way the football career of Robert C. Zuppke, coach at Illinois University, started.

For three years he haunted the football fields at Wisconsin but was too small to make the team, although coaches and regulars admitted that he did not have an equal in school as a football strategist.

And nerve—you couldn't beat him for nerve. He spent half his time in the hospital getting fixed up after breaking his bones and tearing his ligaments trying to break through the varsity line.

The same nerve, the same strategy has followed Zuppke's career as a coach, and under his mentorship Illinois has become one of the most feared teams of the western conference.

Zuppke has long been an advocate of open play. When coaching the championship high school team at Oak Park, Ill., he invented plays which completely dumbfounded his opponents.

And nerve here again? I thought we sent you to a hospital yesterday."

REGIMENTS MELT AWAY LIKE SNOW IN TOPHET ALONG THE NORTHERN ITALIAN SECTORS

Fury of Engagements Beggars

Stories of All Previous
Slaughter.

COMMANDS REDUCED TO
ALMOST NOTHING IN FIGHT

Overwhelmed by Numbers Defend-
ers Give Back More Than
Blow for Blow.

Italian Headquarters in North-
ern Italy, Nov. 24. The battle
between the Piave and the Bren-
ta rivers in the hills leading to
the Venetian plain is reaching a
climax with a fury of action ex-
ceeding anything that has thus
far taken place on that front.
Some positions, after fluctuating
in furious mass attacks, in which
the Germans joined the Austri-
ans, are again in the hands of the
Italians, who made a magnificent
charge up the slopes.

Up and down the slopes this
fearful carnage is proceeding,
and four attacks have been swept
back over the Italian lines over
heaps of enemy dead. Only at
one point has the enemy suc-
ceeded in making headway with his
overwhelming numbers, and here
the Italians have taken ground
with the final issue still in doubt.
Bloodiness Beyond Precedent.
A detailed description of this
most decisive engagement has
been given by the correspondent by
an eye-witness just returned from
the battlefield. He is hardened to
these scenes from recent ex-
periences, but says that the bloodi-
ness is beyond precedent.

COUNT TURIN'S STORY.

Italian Headquarters in Northern
Italy, Thursday, Nov. 22.—The Count
of Turin, commander-in-chief of the
Italian army, which has so distin-
guished itself in the recent operations,
was seen at cavalry headquarters to-
day just before starting for the front,
and through one of his staff officers,
the correspondent obtained a written
recital of the stirring exploits the cav-
alry performed during the recent
eventful days. The document was is-
sued by the authority of the Count of
Turin and reads like an old time
chronicle of chivalry, yet it is only
a plain statement of events that have
just transpired.

Italian Cavalry.

"The Italian cavalry," says the
statement, "proved worthy of the high
confidence the country imposed in it.
No man hesitated, though in the saddle
for long hours under the exhaust-
ing rain and exposed to the cold of
the night without shelter. Conscious
of its mission as a corps of sacrifice, it
pressed through the army moving to
the rear and awaited the advance of
the enemy masses."

"Two cavalry regiments waited in
the open the approach of the invad-
ers. Then the enemy army attempted
an enveloping movement. Two squad-
rons of cavalry were pressing the en-
emy back when an explosion of one
of our ammunition depots that had
been abandoned by us buried them
into eternity."

"The air," the statement goes on,
"resounded as with the sound of ket-
tledrums, while the flying bullets
sounded like swarms of hornets. Dis-
mounting from his horse one of our
generals led a regiment afoot in an
assault with the bayonet. For a mo-
ment the enemy was turned back, but
more enemy masses, thick as ants, re-
turned."

"Officers, men and horses were fall-
ing; the ammunition spent, and no re-
inforcements behind. Having held for
many hours, this brigade felt its task
accomplished, but it would not fall
back and leave one man prisoner. A
major, wounded, and therefore not
able to be transferred when the order
came to abandon the village, shot him-
self dead before his troops after hav-
ing saluted them."

LAKE CARRIAGE ORDER FOR COAL SOON REVOKED

Commissioner Garfield Lifts Pre-
vious Rule as to Transpor-
tation by Water.

GOVERNMENT APPROVES POOLING ARRANGEMENT

(Special to the Tribune.)

Washington, D. C., Nov. 24.—Fuel
Administrator Garfield today request-
ed the priority board to revoke, after
Nov. 13, the order requiring all coal
shipments from middle western fields
to go through to the Lakes for trans-
portation to the northwest, the pur-
pose being to divert coal to relieve
the acute shortage in the middle west
and New England.

Eventual government pooling and
sale of all the coal mined in the United
States was seen as a possibility here
today in the fuel administration's
approval of a producers' pool just
formed at Cleveland, which will han-
dle shipments of mines in Ohio, West
Virginia, a part of Pennsylvania and
perhaps Tennessee and Kentucky. Cre-
ation of other pools will be encour-
aged.

If government pooling is put into
effect it will be made operative next
spring and will supersede the ship-
per's pools. Under such an arrange-
ment the government would requisition
at the mines the entire output
of coal, selling it without profit. Such
a plan was suggested by the federal
trade commission before the govern-
ment took control of the coal industry.
It, however, called not only for
government sale of coal under a pool,
but for a system of paying producers
on a cost plus profit basis.

Advantages in a government pool
pointed out today by officials would
be that distribution would be easier,
since the government itself would
direct shipments, and more efficient
operation of priority of movement.

RESTRICTION WILL STICK.
Fargo errs in believing that it and
other large cities are exempt from
the operation of Fuel Administrator
Baker's order becoming effective at
midnight last night, restricting pur-
chases of anthracite coal for domestic
use to 1,000 pounds.

"The order applies impartially
throughout North Dakota, without re-
spect to division or person," said Captain
Baker this afternoon.

GOVERNMENT CONTROL.

Washington, Nov. 23.—Newly opened
coal mines were put under direct gov-
ernment control today by the fuel ad-
ministration which issued regulations
governing their operation and fixed
prices at which their output may be
sold. Development of further new coal
properties during the war will be dis-
couraged on the grounds that old
mines can be operated more effi-
ciently.

Operations classed as newly opened
mines are those opened before Sept. 1,
and ready to produce coal by Jan. 1,
1918. After the mines are producing
at the rate of 250 tons a day they will
be permitted to charge a profit of 15
cents a ton above the actual cost of
production. Until then they may
charge only the present government
fixed prices.
